

DoConference Web Conferencing: DoMore... DoConference

DoConference is the easy way to **share PowerPoint** slides, **show your screen**, **broadcast yourself** and so much more

And you can do this with just a handful of people or thousands for a fraction of the cost of other services

Use DoConference Conferencing for:

Training and E-Learning

Deliver interactive online classes, E-Learning sessions and educate easily and affordably. Archive presentations and lessons for 24/7 on- demand access.

Sales and Marketing

Conduct interactive online sales presentations and product demonstrations to clients across town or across the globe using only your computer.

Corporate Communications

Get your message across with interactive webinars and webcasts featuring integrated PowerPoint® presentations, screen sharing, polling, chat and more.

High Impact, Interactive Webcasts

We can help you manage your webcast to a global audience of 500 or more from beginning to end with our fully managed webcast options- or do it yourself.

Webcasts and Webinars

Present your audio, video, and PowerPoint® information to hundreds of participants worldwide. Even generate revenue with PayPal integration.

DoConference Features List

With over 20 distinct competitive advantages over the competition, DoConference will make sure your audience does not "GoToSleep".

DoConference is a Powerful Solution for Online Training and E-Learning

Deliver complete online courses and curriculum using DoConference's live presentation platform, while archiving all classes to be made available on-demand. In addition, our powerful registration tools and PayPal integration offer a seamless solution for paid online training.

Deliver Training For Your Organization:

- New employee orientation and training for existing employees
- Web-based communications for corporations and small
- Conduct effective compliance training
- Low cost delivery to 1 or 1,000 recipients
- Educate and train with video conferencing, webcasts, webinars, and more!
- Secure, browser-based interface
- Train multiple locations at once

Solution For Trainers, Speakers, And Educators:

- Intuitive interface lets you create webinar content easily
- Zero travel expenses
- End users access web-based training from home or office
- Interactive features encourage user involvement and audience retention
- Polling, emoticons, screen sharing, moderated chat features, and more
- High quality, video, audio, PowerPoint and PDF slide capabilities

Content Library For 24/7 Storage And Access

- DoConference incorporates extensive Archiving and Content Library features that allow your end user to access complete training, seminar, webinar, and webcast data on demand, 24/7.

 **DoConference Web Conferencing can help Boost Sales and Increase Profits**

DoConference can improve your sales and marketing efforts by delivering instant, on-the-fly meetings to your prospects and allowing them to easily experience your product and your message. Turn a cold call into a warm call by converting a simple phone call into a visual experience which can include webcam video, slides and additional content experts as needed.

DoConference's browser-based interface allows up to six presenters to simultaneously webcast powerful sales and marketing messages to an online audience. Connect remote sales teams for a powerful demonstration without the expense of travel. Everyone can instantly participate in the web conference, and because of DoConference's browser-based and easy to use interface, you'll never need to involve your IT department.

Webinars have been proven to help establish a stronger brand by allowing companies to quickly deliver their message to a large audience. After the webinar is complete, meeting organizers can take questions from the audience, collect additional leads and store the archive for those that couldn't be there live.

With DoConference, Your Sales and Marketing Team can:

- Deliver a stronger pitch using slides, graphics, charts and additional support material.
- Invite other colleagues into your meeting to provide additional support to the prospect.
- Conduct "Warm Calls" instead of Cold Calls. Quickly and easily have your lead to log into the presentation and experience your pitch visually.
- Save time and money on travel.
- Receive an easy to remember Web Meeting URL for all your attendees.
- For software sales, demo the product immediately for them using Screen Sharing.
- Send your prospect directly to the purchase page using the URL forwarding feature.
- Conduct Webinars / Seminars to increase product and brand awareness.

Web-based Corporate Communications Made Easy

DoConference keeps every member of your team on the same page. DoConference's browser-based software can be mastered in minutes, making it simple to deliver your message – without involving your IT department. Better yet, DoConference's robust feature set allows you to integrate PowerPoint® files, to facilitate powerful and effective webcasts, video conferences, webinars and online collaborations.

Use DoConference for:

- Product Launches
- Incorporate PowerPoint® slides, live video, and VoiP into your webcast presentations.
- "Face to Face" CEO chats across town or across the globe.
- Earnings Announcements
- Facilitating face to face communications and collaborations between members in other cities or countries using DoConference's web conferencing service and screen sharing feature.
- Quickly deliver company-wide communications using text, slides, audio and video.
- Create an archive of all your company communications for On-Demand access.

Are your **webinars putting your audience to sleep?** Don't GoTo-Sleep!

Try more than screen sharing.

Try DoConference Webinars.

DoConference is your Complete Solution for Webinars and Online Events

DoConference is the affordable and easy way to conduct a **webinar** for a few people, or hundreds! Quickly train, present and communicate with your audience through screen sharing, **PPT presentations**, whiteboarding, video, chat and more. Our proprietary **webinar technology** requires no setups, no downloads and you will be presenting within minutes. Connect with more people directly from your computer because DoConference works on Windows, Mac or Linux with no setup or downloads for your audience!

Conduct **online presentations**, demonstrate products, collaborate on documents, interact with your audience and close sales faster! Unlimited monthly plans allow you to present as much as you'd like for one fixed and predictable cost.

DoConference Webinars Offer these Features:

- Deliver to Large audiences of 500 or more!
- Live Video and Audio
- Support for PowerPoint 2007 files!
- Screen Sharing
- Live Interactive Polling
- Personalized Meeting URL
- No Software to Download or Install
- PowerPoint™ Slides support with Animations
- Annotation and Whiteboard capabilities
- Moderated Online Chat
- Presentation Recording and Archiving
- And more

Webinar Registration Tools - The Registration Service feature allows a customer to invite their attendees to a presentation session, and allows them to create a registration form which their attendees can complete, in order to collect more information before their event. The customer can specify custom fields for their form, and export the results to CSV, which is a great asset for marketing and sales.

PayPal Integration - In conjunction to the Registration Service, a customer can now easily collect payment prior to their presentation with our seamless integration with PayPal's secure checkout services. Simply provide your PayPal account email, set a price for your webinar, and we'll do the rest. Your attendees pay to view your webinar and you keep all the proceeds.

Content Library - Allows a customer to upload rich media content into their account, and makes that content available from any presentation that they are doing. They can upload PPT Slides, Videos, Pictures and Sounds and can instantly pull that content into their presentations.

Recording Hosting - Allows a customer to record presentations at will and create a library of archived content. DoConference only charges for playing back the presentations. To enable recording, Customers must purchase a block of prepaid playback minutes, or a pay-per-use Recording Hosting Plan.

DoConference now **supports Macs**

Video, Audio, Slides and now **Screen Sharin** support all from the comfort of your favorite Mac workstation or laptop.

Who said we weren't nice to Mac users??

DoConference Web Conferencing Features

DoConference offers a large set of features to address all of your web conferencing needs.

Fully Cross Platform - Macs Included!

With the release of our new Java-based Screen Sharing plug-in, users can access web conferencing, webcast and webinar material using any computer that supports Flash and Java. DoConference is compatible with virtually every available web browser, including Firefox, Safari for Macs, and of course, Internet Explorer.

No Software to Download or Install

DoConference is completely web-based: Its comprehensive web conferencing, webcast, and webinar features are available using your browser. PC, Mac, Linux – DoConference supports them all! Better yet, the expense and hassle of IT involvement is completely unnecessary. **And now, with our new Java Based Screen Sharing plugin, presenters can be on any platform as well!**

Minimal System Requirements

Senders and recipients of web conference, webcast, and webinar presentations can deliver and access content 24/7 from any Internet-ready computer.

Intuitive, Easy-to-Use Interface

DoConference's Flash-based interface keeps you constantly apprised of important info, including: attendee status and elapsed meeting time. Presenters have total control over the enabling and disabling of features.

Live Video

A webcam and microphone are all you need to host live web conferencing with up to 5 attendees, using our feature-rich web conferencing software.

Live Audio

Voice-Over IP is seamlessly integrated for a completely interactive meeting. Using a microphone attached to the computer the presenter can broadcast their voice to all attendees of the web conference using VoIP.

PowerPoint® Slide Presentations

Instantly convert your PowerPoint® presentations with a single click.

More than just a web conferencing tool, DoConference offers full upload and support of PowerPoint® files, making it easy to conduct webinars (web seminars), webcasts, informational conferences, sales meetings, employee training and orientation, and more.

Screen Sharing

Web-based collaboration has never been easier. DoConference lets you share your screen with attendees for software demos, design collaborations, document creation, and more.

Whiteboard with Annotation

DoConference's array of markup tools let you annotate slides on the fly during webcasts, webinars, and video conferencing.

Interactive Text Chat

Public or private interactive text chat lets you send messages to attendees and/or presenters.

Polling

Create custom polls, then collect data in real time to test audience retention, get feedback on products and ideas, or measure customer attitudes. DoConference makes it easy to design polls, as well as store polling data for later use.

Hand Raising and Mood Indicators

By measuring audience attitudes during presentations, you can adjust your message to meet participants' needs.

Resizable Interface

Drag the interface our application to make it meet your specific needs. For webcasting applications, drag the video window and make it larger. For online chats, make the chat area larger. It's up to you!

Presentation Recording and Archiving

All aspects of your webcast, webinar, and video conferencing presentations –including audio, video, and PowerPoint® slides -- are stored on our servers for playback any time of the day or night. Simply email your custom URL to bring those “no-shows” up to speed, without any additional setup or hassle.

Online Account Manager

DoConference's Online Account Manager lets you manage your presentation files across all variables, including audio, video, and slide content. Schedule meetings, track expenses, access session attendance and meeting duration data, and more.

Automated Meeting Invitations

Compose and send meeting invites using a single form, allowing recipients to join meetings by clicking on a link in the email.

Personalized URL

This convenient feature lets you create easy to remember custom URLs to send to clients, prospects, and colleagues.

Content Library

The DoConference Content Library Service allows you to store your critical presentation materials in our servers, so you can offer your clients, sales prospects or employees access to your presentations 24/7.

Upload and store any of the following content and make it available to your audience at any time:

PowerPoint Files, Flash Files, Videos, Audio, JPGs, Movies and more.

The Content Library is the perfect complement to your web conferencing account if you find yourself needing to constantly present new and different content, upload new material, or have a variety of presentations to offer.

DoConference makes these powerful features available to you from the convenience of your computer – without IT expense, investment in servers, or expensive software purchases. With just a webcam and microphone, DoConference gives you access to all of the features of a state-of-the-art web conferencing system from your home, office, or anywhere else you have Internet access. With DoConference, anyone with an Internet-ready computer is a potential audience member.

DoConference Pro pricing starts as low as \$41 per seat per month when discounts are applied. Even our unlimited month-to-month pricing for 15 seats at \$59 per month is a phenomenal value!
